THIS CAR COMMANDS ATTENTION

Not only from the "town-man" but from the "country-man" as well. Ten years ago the automobile was an expensive experiment but to-day automobiles are so planned that they have become not only a practical success but a positive necessity to mankind in every walk in life.

The McLaughlin-Buick is strikingly different to most cars inasmuch as it possesses that rare ability to give satisfactory service on the city pavement, country road or on the farm

The expense of up-keep with a McLaughlin-Buick has been so reduced that to-day a man can operate a car for less than the cost of feeding a horse.

Our Models 1910 are the finest in every detail that our enormous factory has yet produced --- send for a catalogue and learn all about the McLaughlin-Buick for 1910.
